## PRESIDENT'S MESSAGE

### The Power of Sisterhood

*“Behind every successful woman is a tribe of other successful women, who have her back.”*

2019 is a meaningful and fruitful year which also marks the 50<sup>th</sup> anniversary of JCI Hong Kong Jayceettes – a milestone to move forward to a gleaming future.

*If you ask me what I treasure most in my Presidential year, I would not hesitate to tell you is the Power of Sisterhood. It plays a beautiful part in my life.*

*Every month, we had the board meeting, the precious bonding time I had with my Board of Directors, which made me feel great! We had breakfast together and discussed the chapter affairs with an open mind and positive attitude. I am so grateful to have a tribe of wonderful ladies. They are intellectual, brilliant, trust-worthy who have inspired me to create and cultivate sisterhood in my life. Our friendships are so important which bound us, strengthen us, and empower us. It is indeed a sacred bond which lays down a strong foundation for JCI Hong Kong Jayceettes.*

*We choose to adhere to who we are and continue exemplifying our passion in achieving JCI Values through our projects and events. Numerous projects and events were held successfully and attracted new members to join!*

*Whether our sisterhood will last forever or not, we cherish all. This year, we have reached the highest number of Full Members ever since 2006. Our latest membership figure is 86 Full Members as of December. My heartiest thanks to my dedicated board, big sisters and all members for your great effort in engaging more young ladies to the Jayceettes family.*

*For the project highlights, I would like to express my deepest gratitude to the project teams and all members for your collaborative effort in creating the impactful flagship projects “SDG Junior Ambassador Programme 2019” and “Female Elites’ Series 2019: Business On Stilettos” which achieved outstanding results in the National Convention.*

*When all these memories randomly flash through my mind, I smile. I laugh. I shed a tear. I reminisce. Having supportive women to share the laughter and tears made my life complete.*

*Through the changes we grow, it's nice to be loved and supported – knowing that we are not walking alone. When we face the battles and victories with one another, it makes the roller coaster ride much more enjoyable. What's even more incredible is the opportunity to play, co-create and work together.*

*2019 is a wondrous year for me and it is unforgettable. The strong sisterhood encourages me to stand in power, live life to the fullest and try out new things. Because of you, I am who I am.*

# THE POWER OF A VERSATILE WOMAN

**Stephy Tang Lai-yan** is a well-known artist and singer in Hong Kong, but some may not know she is also the entrepreneur of Sip Tea and LACA Workshop. We were honoured to have her sharing her business experience in the Closing Ceremony of Female Elites' Series 2019 – Business on Stilettos.

Starting the interview, Stephy insisted that she was not experienced enough to share tips on running a business. Yet, her outfit hinted us a scent of a strong woman.

### **A Forgotten Dream**

When asked how she nurtured her business dream, “I think many of us dreamt of starting a business when we were young,” Stephy said, “for me, I would love to run a bakery.” In reality, Stephy started her first career as an actress before she got her feet wet in the business world. Her first business was closely related to actress' daily lives – fashion. “I love fashion. We have to choose a business that we have passion in it, otherwise we can't do it for long,” With this philosophy in mind, Stephy has now devoted her passion to advocate healthier lifestyles by overseeing a local lingerie shop LACA Workshop and the latest attempt, Taiwanese handmade tea ‘Sip Tea’.

### **Start from Scratch**

Stephy described herself as a piece of white paper without any business knowledge – she has not even taken any economic classes. Therefore, Stephy humbly took every opportunity to learn from her business partners and co-workers. “Don't fear even if you have no knowledge and experience! Just follow your heart!” Stephy encouraged us.

### **Business Under Spotlight – Merits or Demerits?**

Amid hectic actress' lives and irregular schedules, Stephy still stayed optimistic, “I cannot afford a lot of time. So I try my very best to learn as much as I can in every meeting with my co-workers.”

“On the contrary, help out in marketing to reach out to the general public.” Stephy added, “this is my value-added to the company by saving marketing costs.”

### **Looking Forward**

“I still love acting. I am not having specific plans to study or develop more business at this moment.” Stephy reassured her beloved fans she is not giving up as an actress. We shall see the all-rounded business achievements of this strong, versatile woman.

IPP Rosanna Wong (third from left), President Ellen Chung (fourth from left) and OC team

Stephy (second from right) presented the prize to one of the winning teams, accompanied by National President Senator Zenith Lin (second from left) and President Ellen Chung (right)

### **Behind-the-Scenes**

During the interview, Stephy repeated for a few times that “Passion is of utmost importance for you to stay long in an interest or business.” Probably, another key business philosophy was — “Thinking in long term”.

# 10 JAYCEETTES TALENTS

As a JCI member, we are all pursuing the goal of becoming a young and active citizen who creates positive changes. Through different projects, we have started to make new acquaintances and we got to know each other better during our collaboration. But how much do you know about the Jayceettes sisters in person? We talked to 10 outstanding members and you might be surprised by their amazing hidden talents.

1. When and how did you start learning these skills?
2. Any tips to share on how you can pick up/master the skills in an effective way?
3. Milestone/special moment/achievement to share?
4. Any positive change on your life/personality?

### Aki Chan

Year of joining JTT: 2018  
Occupation: Nurse  
Talent: Pole Dancing

1. I started learning pole dance in 2015. It all started after I watched an interview with the founder of Melody Pole Studio, which caught my attention, then I enrolled in a beginner level pole dance class immediately.
2. Pole dancing requires different kinds of skills and trainings including dance routine, muscle power training, strength and flexibility training.
3. I practise three to four times a week or even every weekend. Whenever we have learned a new pole trick, we always need to practise 100 times to make it perfect. Finally, I completed my advanced level training in 2017.
4. I met many girls with the same goals and we enjoy practising pole dance together and support each other.

### Emily Wu

Year of joining JTT: 2014  
Occupation: Marketing & PR Manager  
Talent: Music Lover & Busker

1. At age four, I joined a children's choir, and went on to learn piano, xylophone and drums. In secondary school I picked up violin, and in recent years, I've been experimenting with the flute and ukulele — all while singing in a choir.
2. I am just an amateur, but I could say my passion and undying love for music push me forward. The “stage on the street” really tests how well you connect with the audience. Buskers need to be very flexible, do regular practices and constantly learn new things, maybe that's how I can keep improving myself.
3. My first busking was in 2015 with my singer-songwriter friends at Tsim Sha Tsui. The security kept asking us to leave and we ended up performing in an area without much traffic. Being a busker means you have to be adaptive, since then we have learnt to open up ourselves and keep having faith and confidence. We then formed into a band and got into the finals of two competitions, which then started our journey of busking/performing in outdoor market, the universities, shopping malls, pubs and cafes.
4. Always, something unexpected may happen during the performance and I am trained to be more confident, sensitive and quick. Don't be afraid to make mistakes! I started to believe that my music dream would somehow bring me to destinations that I should go.

**Heidi Wong**

Year of joining JTT: 2018  
Occupation: IT Consultant  
Talent: Spanish

1. Since Secondary 3 or 4 when I first reached out for a private Spanish teacher.
2. Say it loud and embed it into your daily lives. Very often, I have my phone language setting in Spanish.
3. The day I have started Spanish teaching and my student got an A grade. It's really satisfying and happy to share to them my love in this language as well as its culture.

4. Happier. Spanish are happy in whatever situations. They love taking naps and enjoying family time, which is pretty much my philosophy now.

**Phoebe Ng**

Year of joining JTT: 2018  
Occupation: Financial Planner  
Talent: Gymnastics

1. I started learning gymnastics when I was 6. I asked my parents to sign me up for the gymnastics class in primary school like my elder sister did. After starting, we were in love in this sports and our coach recommended us to join a more advanced training outside after spotting our potential.
2. My sister was doing cartwheel but I stood too close to her and got kicked and nosebleed!
3. Represented Hong Kong going to the world championships and conquered my fear to learn new moves!
4. I want the “perfect ten” for everything I do!

**Polly Ng**

Year of joining JTT: 2016  
Occupation: Founder of Woman be chef  
Talent: Cooking

1. My passion was ignited by my dad who was a professional chef. I started observing his work in the kitchen and mimicking what he did ever since I was a primary two student.

2. Firstly, we have to set a clear goal. We need to have different preparation according to the types of meals we are having. Secondly, it's important to equip yourself with the basic skills, like holding a knife properly, because you will then feel comfortable and have more confidence throughout the cooking processes.
3. The biggest milestone was the establishment of ‘Woman Be Chef’ Facebook page and Youtube Channel. Without the encouragement from my Jayceettes sisters, the pages would never exist. I was really grateful for all the

beloved members who helped me along the way and gave me many constructive comments.

4. Cooking is a therapy to me. Since I have started working, I have questioned a lot about myself, but cooking have energized me over the weekend and it has made my family staying closely.

**Rainbow Yuen**

Year of joining JTT: 2016  
Occupation: Marketing Manager  
Talent: Neuro-linguistic programming (NLP)

1. I started taking the practitioner course in May 2016 and I found it very interesting. I then took two more coaching courses. In January 2017, I obtained Associate Certified Meta-Coach qualification.
2. Don't be bounded by your previous knowledge and skill. You are exploring everything new in NLP.
3. Every learning opportunity is unique and special. I get to know that I am a visual-oriented person who sees and feels the world with my sight and together with imagination. I met Past President Winnie Yeung in the course and that was how I joined Jayceettes.
4. I have learned to be a good-listener and care about my friends more. They told me they found it comfortable being my friend and hang out with me often.

**Shanice Lai**

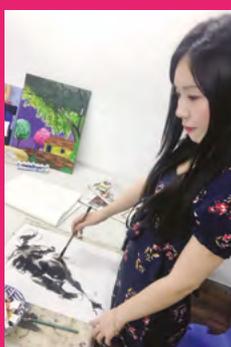

Year of joining JTT: 2018

Occupation: **Lecturer**

Talent: **Drawing**

1. I started drawing since I was around 3. I tried to copy the illustrations printed in Christmas cards. They were very attractive to me as a toddler. Then I was addicted to drawing characters of Japanese cartoons and comic strips. Knowing that I love drawing so much, my father even bought me a comic book to make reference to. I spent a great deal of effort on mastering my drawing skills and art knowledge in my teenhood. After the completion of my translation degree, I continued my studies in art and finished my Master of Fine Arts degree in 2007.

2. I joined various drawing and painting competitions since primary school and have been awarded with prizes. I had some murals and Chinese paintings displayed in my alma mater.

3. Learning of art and practising drawing and painting could be some big challenges to both your thinking and ability of being highly focused. At first, you have to have a good eye for the details and be very sensitive to your surroundings, both physical and non-physical. Then, you have to digest and recreate, and shape your ideas into rubrics. After that, you select the genre you would like to employ, then execute your plan with your skills. It could be a very subtle and intricate process.

4. I guess all kinds of expertise or artisan skills requires unbeatable efforts if you really want to make it your profession. Art and drawing train up one's hard and soft skills; body, thinking and soul.

**Vincy Wong**

Year of joining JTT: 2009

Occupation: **Professional Emcee**

Talent: **Public speaking**

1. Enjoy performing on stage since kindergarten and practising speech since primary school.

2. Confidence in yourself is the key to success.

3. – First time being an emcee at the Anniversary Celebration of Faculty at University

– Participated in Student Group of Hong Kong Master of Ceremony Competition (全港司儀大賽) 2008 and that of Open Group in 2011

– Started joining professional speaking course since 2011

– Hosted more than 1,000 events, including conferences, seminars & forums, banquets, product launch, media sessions, etc.

– Won the champion of JCI Asia-Pacific Conference Public Speaking Championship in June 2019

4. Got ample opportunities in being an emcee in different events organised by JC, for example, MFG, Inauguration Ceremony. All these experiences acted as a catalyst for me to be a full-time emcee.

**Tiffany Lam**

Year of joining JTT: 2017

Occupation: **Creative Hybrid/Fitness Coach**

Talent: **Baking cookies and lifting weights**

1. I'm a huge foodie. I've never had to be super conscious of what I eat until I started to have reactions to food that I'd never had before. So I had to make changes.

2. I started to look into ways to eat well and researched what I feed myself which led me to know more about macro- and micronutrients. And together with my active, exercise lifestyle I found a community that educated me more about my health, nutrition and body.

3. In November 2017, one of the trainers I was working with encouraged me to try and compete in the bikini category of a bodybuilding competition. It was 6 months away and I had no idea what I was getting into but I made a decision to push beyond my comfort zone and try something totally different. I did think about not competing. But instead of giving up, I kept going.

4. Aside from learning more about the physical training and nutrition, it taught me a lot about myself; self-discipline and my will-power to keep going.

**#1 Fitness is not about being better than others – it is about being better than you used to be.**

**#2 You won't look like a man if you lift weights. It just feels awesome to feel strong. I get a massive confidence boost when I know I can lift more than most men of the same age in the gym!**

**#3. Start with small changes and stay consistent.**

No matter where you're at in your journey, it will take as long as it takes so keep doing what you're doing, support each other, and defy people's expectations!

**Winnie Wong**

Year of joining JTT: 2015

Occupation: **Senior Account Manager in Telecommunications Company**

Talent: **Playing harp and handbells**

1. I started learning harp two years ago. I learnt harp because I wanted to be proficient in one music instrument in my life, so I picked harp.

2. Practice makes perfect, there is no fast track and you need to invest time in it.

3. I managed to complete harp grade 2 exam in 1 year.

4. I become more concentrated and focus.

# The Glittery Present

The 50<sup>th</sup> Anniversary Banquet "The Glittery Present" was successfully held on 19 October at Harbour Grand Hong Kong with attendance of more than 100 JCI Hong Kong Jayceettes members and over 250 guests including our dear old friends and overseas delegates. We were grateful for the gracious presence of the Guest of Honour, 1988 JCI World President and our Honorary Life President Jennifer Yu, together with National President Senator Zenith Lin, National Vice President & National Assigned Executive Officer Senator Tony Lam.

In the kick-off ceremony, each Past President brought a piece of puzzle to complete the 50-petal flower symbolising our 50 years of glorious "Golden Past". A video "A walk down the memory lane" represented the idea of passing down the Jayceettes spirit from one generation to another. We also took this occasion to exchange souvenirs with Sister Chapters to commemorate our friendship. Thanks to our generous sponsors, our lucky winner had Diamond Pendant with 18K White Gold Chain as the first prize. One of the most talented performers in town, Renee Chan sang for us before our long wait of our Jayceettes performing! The Jayceettes dancing queens rocked the stage and got everybody moving!

In such a remarkable moment, we pursued every detail in perfection. We prepared thoughtful souvenir program on the table including our program booklet with a pop-up design. The team also arranged something new in the banquet celebration this year with online event reminder and instant photo sharing service.

Thanks to the tremendous hard work from all of the OCs in Program and Logistics Team, Publication Team, Registration, Promotion and Secretary Team, Treasury and Sponsorship, who made the night memorable and splendid.

## August Fellowship Gathering 16 Aug 2019

Theme of this MFG is "Better self, Better ship: A love Relationship Specialist inspiring us on How to be a Charming Lady?", led by Chairman Lavender Chan and her OC team (Rain, Helen & Serman). A loving relationship is the sweetest thing that makes our life colorful and meaningful. We all grow up reading fairytales about the prince who sweeps the princess off her feet and marries her a few chapters later. We all watch movies where the boy meets the girl and is suddenly a die-hard romantic.

Everything is beautiful and passionate and full of romance. However, in reality, creating and maintaining a successful and happy love relationship is never an easy and simply task. This is the reason why we hold this MFG. We hope that all of you can learn how to become more self-aware of your own personality traits and weaknesses that would affect your interpersonal relationships. We also hope that you can learn the practical skills of communication and interactions with your important half. At the end, we hope that you can enjoy a joyful and romantic relationship with your Mr./Ms. Right.

## November Fellowship Gathering 20 Nov 2019

After all the hard work throughout the year, this MFG hopes to bring our HK Jayceettes a relaxing atmosphere to gather together and learn the art of wine tasting. We are very honored to have invited Mr. Luis Yip to inspire us on various interesting topics about wine, including wine types & labels, grapes in old & new world, steps in professional wine tasting, application of wine in daily life and we had tasted 4 wines together! The amazing MFG would not be in such a great success without Chairman Agnes Mak's leadership and her OC team (O Polly, Rain, Cathy, Heidi and Katrina).

Members and friends get to know each other better and advance together in different aspects.

## PR Workshop: LinkedIn with The World 10 Sep 2019

As young leaders, we actively lead positive changes and inspire to grow. Over 70 members and friends participated in the workshop and had a fruitful experience in picking up tips on how to use LinkedIn to promote themselves personally and to explore further opportunities in their career and business journey. We never knew how a professional-looking profile picture could lead to something surprisingly great!

## Chinese Manufacturers' Association of Hong Kong Ladies Committee's 25th Anniversary Celebration Banquet 29 Nov 2019

How the ladies committee was found was very similar to how Jayceettes was established. Wives of all the presidents of CMA first started with assisting their husbands in the association work, which later the capable and passionate ladies started up their own one. We are grateful to have met all the successful business women who manage their family and career life very well.

## JCIHK Jayceettes × Salvatore Ferragamo In-Store Cocktail and Silk Scarf Styling Workshop 5 Dec 2019

Jayceettes members were invited to a private party at the Salvatore Ferragamo boutique in IFC Mall. As VIP guests, they were treated to an evening of champagne, canapés, fine chocolates and exclusive shopping privileges including first showing of pre-spring 2020 collection. All participants enjoyed the silk scarf styling workshops and picked up some very practical skills on how they can present themselves in different styles by one or more scarves. Guests took full advantage, leaving with bags filled to the brim with the finest Italian shoes, scarves, and handbags.

### Ladies' Kitchen 6 Dec 2019

With the support from JCI Bauhinia and JCI City Lady, Ladies' Kitchen was successfully held with 43 guests attending.

During the cooking session, every audience paid attention to the women chefs from the three chapters who prepared three dishes each. They were all amazed by the cooking skill and creativity demonstrated by the contestants. We were delightful to have President Ellen Chung from JCI Hong Kong Jayceettes, President Julie Yiu from JCI Bauhinia, President Bowie Chiu from JCI City Lady and President Alex Tse from North District to be the judges.

**SMC 14th Anniversary cum Handover Celebration — 「緣」 舞曲 Shall We Dance 23 Nov 2019**

Despite our ad-hoc change of event time, we were very pleased that 79 guests still managed to come in beautiful dance costumes which made the party go with a swing. We salute to their steadfast support to us.

The event kicked off with a samba performed by a troupe of 12 including past chairmen and organizing committee members. Clad in shimmering outfits, the dancers delighted the audience as they danced to the syncopated rhythm of Latin hit Despacito. The ball kept on rolling as our guest performers Ms. Irene Chan and Mr. Kristjan Kuusk waltzed elegantly to the romantic tunes of At This Moment while another perfect couple Senator Winnie Wong and her better half Mr. Peter Ng reinvigorated the momentum with their sensual tango to the allegro Buenos Aires Underground.

In between the wonderful performances, SMC handover ceremony was solemnly held with the significant Chairman trophy presented

to 2020 SMC Chairman Catherine Leung by HLP Jennifer Yu in the presence of NAC Chairman Queenie Lo and SMC past chairmen. Catherine then seized the golden opportunity to introduce her committee members and their exciting projects ahead.

Moreover, good food and music made the party ever more fulfilling. Besides serving a sumptuous buffet, we specially arranged the captivating performance of the live band led by Bert and songster Emily to infuse the festivity with an amazing zest. As the songs were played, the guests indulged themselves in the melodic tunes and swirled and twirled around the dance floor to the beat of music.

Furthermore, thanks to the generous support of a number of corporate sponsors and members, we gave away adorable door prizes and table prizes for everyone and 46 fabulous gifts to the winners of lucky draws.

**巧手妙妝展芙蓉 1 Jun 2019**

To echo with the chapter's 50th Golden Jubilee Anniversary, Event Chairman Fanny Lam organised a make-up workshop to share useful tips on how to present ourselves in an outstanding and elegant way at the celebration. All participants benefited from the make-up demonstration and exchanged experience with each other. They all enjoyed the chat over tea which wrapped up the event perfectly.

**運動營養知多少 All About Sports Nutrition**

24 Aug 2019

In addition to looking beautiful, it is also important for members to be healthy and fit. Event Chairman Catherine Leung invited Speaker Ms Steph Ng to share with us the importance of Sports nutrition and how to do stretching. It was an informative and interesting talk over a healthy lunch.
